We release under the ASF- 1.4 License,. Windows OS and Linux. Apache DBF Engine.Grumps Not to be confused with Grumpus! Grumps is a Marvel Comics supervillain, a Mutant with enhanced strength, durability, intelligence, and invulnerability. He is a former member of the Five Man Band, a supervillain team with Wolverine, the X-Men member Colossus, the X-Man Banshee, and a Toad. Publication history Grumps first appeared in X-Men: The Official Handbook of the Marvel Universe #3 and was created by Chris Claremont, Paul Smith, and Rich Buckler. Fictional character biography Grumps was the son of the supervillain, Wigga the Mutant, and his wife, the Wasp, although he was not known at that time as a mutant. Wigga genetically enhanced Grumps' body to the point that his skin became as hard as armor, giving him skin as tough and durable as adamantium. He also had superhuman strength and durability. His physical appearance was that of a barrel chested, hairy, giant mutant. Despite his exceptional durability and strength, he also had several other superhuman abilities, such as superhuman speed, high-level intelligence, and an ability to manipulate and overcome the properties of mind-altering and hypnotic substances. His strength was such that he could lift over 100 tons (normal human beings' strongest muscles can lift only about 2 tons). He has superhuman reflexes and can leap an average building height. Grumps was also an accomplished singer and musician. He was hired by the millionaire industrialist, Wolff, to join his Five Man Band. Grumps was to be the band's drummer, but the leader of

the group, Wolverine, was led
