You can create multi-track HD (Blu-ray or DVD) video with complete high-end features. It is an all-in-one Blu-ray Disc to DVD/Blu-ray Disc and DVD/DVD Video Disc mastering solution. Reformats Blu-ray to high-quality video formats including WMV, MPEG, AVI, MOV, MP4, etc. and adds videos to multi-track Blu-ray discs. You can customize your video settings according to your own requirement. Windows 7 or later are required. A great variety of codecs and containers are supported by WMV to MPEG Converter. The program is compatible with the latest and previously released versions of both the Windows and Mac operating systems. With DeDRM+ you can easily protect any Blu-ray or DVD on your computer, mobile device, external hard drive, or the cloud. It protects Blu-ray discs, DVDs, CDs, audios, and videos. The protection is as a digital rights management and watermarking technology that is invisible and imperceptible to the naked eye. DeDRM+ removes all DRM restrictions and converts Blu-ray and DVD discs to unprotected MP4/H.264/MP3 format without changing the physical content. DeDRM+ can handle each individual disc individually. For DVDs or Blu-ray discs, it can protect the whole movie with one pass, or you can work with one title, chapter, or episode with its manual protection. The DeDRM+ protection for Blu-ray or DVD discs allows you to enjoy the original video in a DRM-free manner. You 82157476af
